

COME TOGETHER, SHARE CONTENT
AND COLLABORATE IN REAL-TIME

TRUE COLLABORATION THROUGH WIRELESS PRESENTATION

Enable multiple users – whether in the room or remote – to connect and share content seamlessly and professionally from their own device, with Coalesce™ Meeting Place Edition. It combines wireless display, video conferencing and screen sharing technologies to encourage true business collaboration and make every meeting or huddle space more productive and effective. Allow up to 4 users to simultaneously connect and share from anywhere in the world.

REAL-TIME, WIRELESS PRESENTATION

Everyone's ideas are just a few clicks away, and shared instantly with other users.

CONNECT ANY DEVICE

Use your laptop, tablet or smartphone, and connect via Windows client, Chrome web browser, Apple Airplay or the free Android/iOS app.

TOUCH INTERACTIVITY AND REMOTE CONTROL

Touch screen interactivity and remote reach-through enable users to control their laptop or tablet from the main touch screen display.

WHITEBOARDING

Enable users to sketch ideas, annotate and brainstorm on screen, and share it all with their team.

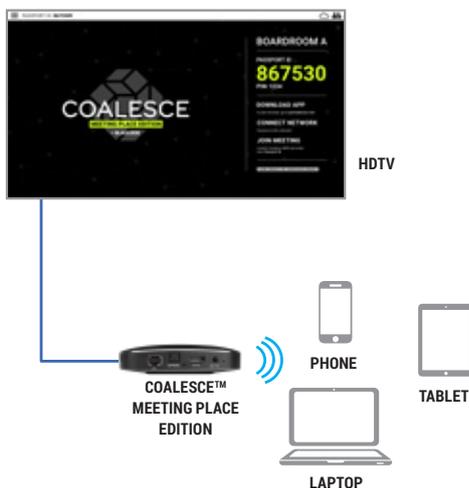

SAFE AND SECURE DUAL-NETWORK MODE

Connect wirelessly, over a wired network or both at the same time without sacrificing network security. Data is protected with 2048-bit asymmetric encryption.

EMBEDDED MEDIA PLAYER

Users can upload videos and audio, or link to URLs to play media directly.
